MEMORANDUM FOR: Special Assistant to the DCI for  
Planning and Development

SUBJECT: New Color Photographic Process

REFERENCES: HPA/OC-175-58, dtd 16 September 1958  
DPS-4876, dtd 13 October 1958

1. In response to your referenced memorandum I would now report in writing that [ ] California trip was executed as planned and his findings relative to the new color photographic technique are enclosed herewith.

2. As you will recall I have given you a verbal summary of this experience plus an indication of some of the subsequent correspondence that we have had with [ ]. You asked me to look into the matter of determining how we could reimburse [ ] for his services to CIA in this matter. I have discussed this with [ ] TSS/APD, and found that it can be handled simply by dusting off [ ] old contract with CIA and have it re-established. Under it [ ] would be paid a nominal sum to cover limited travel expenses and services for those hours or days when he was actually engaged in running down the data we would like to obtain on [ ] color technique.
